It's Like Having Your Own IT Department

System downtime, viruses, spyware, losses of productivity.... Are the computer systems you rely upon to run your business not working consistently and as expected? These distractions are unnecessary, time consuming and very expensive.

Proactive, Flexible, Affordable, Managed

At CCS, we understand this. We also know that businesses are constantly challenged by the task of managing the demands of business growth while coping with continuous technology challenges.

Our focus is to keep your IT systems operational, available and secure so that you can focus on the everyday demands of expanding your business, managing costs and increasing revenues. We're here to help you realize the productivity gains and ROI you have been expecting from your computer systems all along.

Managed Services from CCS consists of various service level offerings that provide affordable proactive IT management and support. Utilizing our unique framework for providing managed IT services, CCS provides a range of proactive services designed to optimize your technology investment and maximize the productivity of your people and business.

It's not just about monitoring, that just lets you know something is wrong.

And it's not just about remote access to your systems to troubleshoot issues.

It's about a proactive preventative approach to IT systems management

This is possible through the use of a series of "Best Practices" that we have developed over years of collective experience.

Best practices for tasks such as:

- Spyware Protection and Removal
- Virus Protection
- Disk Drive Analysis
- Security Patch Management
- Application Usage
- System Auditing
- Backup and Disaster Recovery
- User Policy Enforcement

Best practices that are embodied in an automated state-of-the-art infrastructure that gives you immediate response time, access to resources and proactive solutions.

Our technology expertise becomes your competitive advantage.

DID YOU KNOW?

20 million person days per year are lost due to technology failures

A cost that few Businesses can afford. Any business supported by technology should consider both direct & indirect costs.

WWW.NWACCS.COM

Businesses are often shorthanded when it comes to fully leveraging technology, and are often frustrated because their IT staff is spending too much time simply keeping their IT systems up and running. They would prefer to be using their resources to perform more strategic tasks which can have a greater impact on their business rather than simply reacting to problems."

Jeff Kaplan, THINKstrategies, Automating and Optimizing Service Delivery Performance

Proactive IT Management

By maximizing the benefits of technology, daily, weekly and monthly IT tasks can be automated and scheduled to ensure all tasks are completed and reported consistently and without fail.

As the tasks run, valuable data is gathered to spot trends and patterns which can be used to plan system changes or enhancements. This reduces or eliminates any impact on the business.

Consistency creates reliability which results in predictable costs. How many times have you received a bill that you couldn't understand or begin to determine if it was justified?

Consistency is the cornerstone of Managed Services

Managed Service Features

- Site Assessment and Inventory
- Proactive Service
- Management and Status Reporting
- Best Practice Driven
- Automated and Reliable

We keep you informed by providing regular communication and executive reports covering the overall health of your computer network and the results of our services.
